

ROBERTO E. VIRAY II

Senior Java Developer | Spring Boot Engineer | Lead Full-stack Software Engineer

Philippines | +63 955 776 4567 | robertovirayii@gmail.com

PROFESSIONAL SUMMARY

Senior Java and full-stack software engineer with 10+ years of experience delivering enterprise applications across banking, healthcare, logistics, IoT, and internal business systems. Deep hands-on experience with Java, Spring Boot, REST APIs, microservices, Spring Data JPA, Hibernate, SQL databases, Kafka, and modern web/mobile stacks. Proven experience leading engineering work, reviewing code, translating business requirements into technical solutions, mentoring developers, and supporting production-ready releases. Well suited for autonomous remote Java development environments requiring strong backend ownership and cross-functional delivery.

CORE TECHNICAL SKILLS

Java / Backend: Java 8/11/17, Spring Boot, Spring Framework, Spring Security, Spring Data JPA, Hibernate, J2EE, REST APIs, Microservices, Kafka, JUnit

Frontend: Angular, Vue 3, React, Next.js, Vaadin, JavaScript, TypeScript, HTML, CSS

Mobile / Desktop: Flutter, React Native, Android Native, C#, Windows Desktop Applications

Databases: PostgreSQL, Microsoft SQL Server, Oracle, MySQL

Cloud / DevOps: Docker, AWS, GitHub, CI/CD, Linux, Maven, Tomcat, Application Deployment

Engineering Leadership: Technical Design, Architecture, Code Review, Team Mentoring, Knowledge Sharing, Agile, Scrum, Kanban, Task Management

PROFESSIONAL EXPERIENCE

Accenture - Mandaluyong City

Oct 2024 - Jan 2026

Advanced App Engineering Associate Manager / Lead Full-stack Software Engineer

- Led full-stack engineering activities for enterprise applications spanning backend services, web interfaces, mobile components, and production support.
- Designed and developed Spring Boot backend microservices and REST APIs aligned with established architecture standards and application design requirements.
- Translated business requirements into maintainable technical solutions and responsive, accessible user experiences.
- Reviewed teammates' code before deployment to improve quality, maintainability, and production readiness.
- Conducted knowledge-sharing sessions across teams and supported multiple assignments involving Java backend, Angular, Vue 3, Flutter, and C# development.

Technologies: Java, Spring Boot, REST APIs, Microservices, Angular, Vue 3, Flutter, C#

StorageX Corporation - San Juan City

Jun 2021 - Mar 2023

Lead Software Engineer / Consultant

- Owned technical architecture, development, deployment planning, and task management for an IoT-focused product ecosystem.
- Designed and developed Spring Boot REST APIs supporting integrations and operational product workflows.
- Built and supported Flutter mobile applications and C# Windows desktop tools alongside web platform components.
- Provided technical direction and coordinated continuous product improvements across multiple application layers.

Technologies: Java, Spring Boot, REST APIs, Flutter, C#, Windows Desktop, Next.js, Firebase

Atticus Advisory Solutions - Pasig City

Jul 2022 - Nov 2022

Senior Full-stack Java Engineer

- Developed, maintained, and enhanced client-facing business applications using Spring Boot REST APIs and React.
- Improved existing application architecture based on client requirements and production needs.
- Handled issue resolution and feature delivery for business-as-usual development.
- Worked with Kafka-based messaging distribution for asynchronous and distributed workflows.

Technologies: Java, Spring Boot, REST APIs, React, Kafka, SQL

Finastra - Makati City

Nov 2019 - Mar 2021

Senior Java Developer

- Developed and maintained enterprise applications using Java, J2EE, Spring Boot, Angular, and Vue-based technologies.
- Implemented new features, diagnosed production issues, and supported iterative Agile sprint delivery.
- Worked across Angular + J2EE applications, Spring Boot REST API projects, and RPA-related initiatives.
- Served as backend coordinator for a volunteer project using JHipster and Vue.js.

Technologies: Java, J2EE, Spring Boot, REST APIs, Angular, Vue.js, JHipster, RPA

Optum Philippines - McKinley, BGC

Mar 2018 - Aug 2019

Associate Software Engineer II

- Developed and maintained enterprise web application features using Java, JSP, Servlets, Spring, JPA, Vaadin, JavaScript, HTML, and CSS.
- Created and executed JUnit test cases and supported debugging, builds, deployments, and production maintenance using Maven and Tomcat.

Technologies: Java, Spring, JPA, JSP, Servlets, Vaadin, Angular, JUnit, Maven, Tomcat

EARLIER JAVA / SOFTWARE ENGINEERING EXPERIENCE

- Volenday / Labitech - Web Developer (Jul 2017 - Feb 2018): Java, Spring Boot, Vaadin, Hibernate, JDBC, MySQL; supported two junior developers.
- Misys Philippines / Finastra - Associate Software Engineer (Sep 2015 - Jun 2017): Java, JSP, Servlets, Spring, JavaScript, HTML, CSS.
- RGP Philippines / Citibank - Web Developer (Jun 2015 - Sep 2015): requirements analysis, automation, Microsoft Access, Visual Basic, Java Swing.
- PLDT - Database Administrator Trainee (Apr 2014 - May 2014): Oracle, SQL, stored procedures, debugging; built a C# desktop tracking tool.

SELECTED CONSULTING & PROJECTS

- Healthcare Management System - Built with Spring Boot and Vaadin; packaged with Docker and deployed to AWS.
- Australian CRM Client - Senior Software Engineer maintaining a Java/Vaadin 8 CRM and leading upgrade planning, development, and deployment.
- MageTECH / Avyan Global Solutions - Developed and managed applications using MongoDB, Express, React, and Node.js.
- Q24+ Text Messaging Blast - Built a messaging blast tool for communication and automation use cases.

EDUCATION & RECOGNITION

Bachelor of Science in Computer Engineering - Pamantasan ng Lungsod ng Maynila, Manila | 2010 - 2015

Academic Top Three, College of Engineering and Technology

Top 10 Finalist - Smart Sweep Contest, "Smart Reserve"; Ericsson Award Prize, 2015
